Celebrate Golden Wedding.

The celebration of the golden wedding of Mr. and Mrs. Luke Collings was the occasion of a reception at the home of their son, Mr. W. Collings, at Springside on Thursday evening last, which was attended by the members of the family and a number of friends.

A 3 tier wedding cake centred the table, and among the various gifts received was a set of Community Plate presented by the family.

Mr. and Mrs. Collings were married at Shuttleworth, Lancashire, England, on September 27th, 1881.

Mr. Collings came to Didsbury in 1908 and purchased land in the Springside district.

The rest of the family coming out in 1911.

They homesteaded at Rimbaldie, Alberta, and in that district

about two years afterwards moving back to their farm at Springside.

Retiring from their farm six years ago they purchased a residence in Didsbury where they have since resided.

To the union were born one daughter, Mrs. Frank Jackson of Didsbury; three sons, Mr. Harry Collings of Elminton district, Mr. Tom Collings and Mr. William Collings of Didsbury. There are eighteen grandchildren.

The whole community, both town and country, join in wishing Mr. and Mrs. Collings many more years of wedded happiness.

Chas. Mortimer had a very successful hunting season. Last week he came home with a couple of fine specimens and on Monday we heard that he and Jack McWay were successful in bagging 28 chukars and huns. Jim Kirby and George Elder also report a good bag on Monday.

Nominated for Calgary City Council.

Mr. Aylmer Liesemer has been nominated for a seat on the Calgary city council by the Canadian Labor Party.

Mr. Liesemer is the son of Mr. and Mrs. J. E. Liesemer and was educated at the Didsbury schools. He is now a teacher at the Crescent Heights High School in Calgary.

Burglars Break Into Mac's Hardware

Wm McFarquhar's hardware was broken into on Sunday morning, but the thieves were apparently pliable, as nothing was missing from the store.

An index made in the door panel

at the Yale lock opened from the outside.

The safe had been tampered with, as on leaving the store the safe, which contained very little but the locks, was not locked, but after the break it was discovered that the combination had been turned and the safe was locked.

Conrad Kerecher had tried the door at 10 a.m. and proceeded to the Creamery and on returning at 1:30 found the store had been entered.

A checking was made, but neither goods or cash were found missing.

Calf Club Fair and Judging Competition

The annual fair and judging competition in connection with the Didsbury Calf Club was held at the Agricultural Grounds on Wednesday, September 26.

The quality of the calves exhibited was very commendable and the boys and girls of the club deserve much credit. Mr. H. Hays of Calgary acted as judge.

The following awards were made:

Yearling Heifers

1 Lorne Liesemer, 2 Euid Roberts, 3 Harvey Stevens, 4 Jeanne Macdonald, 5 Joe Green.

Calves

1 John Bruce, 2 Marian Leveagood,

Paul Hansen, 4 Glyn Roberts,

5 Grenville McCagg.

Judging Contest

1 Delbert Leveagood, 2 Wilma Liesemer, 3 Ethel Bruce, 4 Norma Hardbattle, 5 Harry Stev-

As Delbert Leveagood, who last year represented Alberta in the judging competition at the Toronto Royal Fair, was not eligible, the two next highest in the competition, Wilma Liesemer and Ethel Bruce, were chosen to represent the Didsbury club at the provincial judging contest to be held at Lacombe.

Thanksgiving Day

Monday, October 8 has been set aside by the Government of Canada as "Thanksgiving Day" throughout the Dominion and will be a public holiday. Stores and Business Houses will be Closed.

Hail Board Sets Insurance Rate

The Alberta Hail Board has set the insurance rate for the past season. Both Mountain View and Westdale municipalities have been placed in Class "C," and the rate is set at 10 per cent.

The volume of insurance carried in 1933 was 20 per cent. higher than in 1932, and the loss to property due to the risk was considerably greater than the average for the past 10 years.

In setting the rates the province has been placed into seven classes by township, the classes being determined by the loss experienced over all the years since 1919. These rates are for full average.

The following rates were established:

Class "A" 15 per cent.
"B" 12 per cent.
"C" 10 per cent.
"D" 9 per cent.
"E" 7½ per cent.
"F" 6½ per cent.

A discount of 5 per cent. of the premium is allowed if the tax is paid before December 15.

Will Register Dominion Electors

Registration of voters for the Red Deer electoral division will be held from October 15 to 29, according to notices which will soon be posted.

Mr. A. Clark Bury of Olds is the registrar of voters.

Mr. and Mrs. Ellis Barnes left last Friday for Bellingham, Wash., to attend the funeral of Mrs. Barnes' father.

Obituary.

MARY COOPER HUGHES.

Funeral services were held at the Westcott United Church on Thursday afternoon last for the late Mary Cooper Hughes, who died Monday, September 24, Rev. C. J. Hallman officiated.

Mary Cooper Hughes was born near Hanover, Ont., on June 30, 1860, and departed this life from her home near Westcott, Alberta, on September 24, 1934, at the age of 74 years, 2 months and 24 days.

The deceased, after attending Normal School in Ottawa, taught school until her marriage to Mr. Hughes, in 1883, with whom she came to Alberta, where she lived until the time of her death. To this union were born two sons, James and Wallace, of Westcott, and one daughter, Mary, superintendent of Swift Current Hospital, Sask. Mr. Hughes predeceased his wife in death thirteen years ago.

Besides the immediate family there are left to mourn the sad loss, two brothers, John, of Hanover, Ont., and Alex, of Parkhill, Ont., a brother, Charles, having died only three weeks ago at Dalhousie, Sask., three sisters, Mrs. A. Derby, Durham, Ont., Mrs. H. Ford and Miss Jessie Cooper, both of Hanover, also the four boys of Didsbury, nephews, besides a host of friends by whom she was loved and respected.

Miss Hughes manifested a keen interest in all community work, particularly that of the United Church at Westcott and the Women's Institute at Rugby. She was instrumental in starting the first Sunday school at Rugby some years ago, and was ever an inspiring worker, nobly doing her part for the moral uplift of the community in which she lived. She will be greatly missed from among us.

WEEKLY SERMONETTE

The world is wide, in time and tide,
And God is guide, then do not hurry.
That man is blest who does his best
And leaves the rest, then do not worry.

Have YOU Registered on the Voters' List?

More than half the time allotted for relatives and tenants to register on the Voters' List has expired, and the secretary-treasurer of the town reports that up to date only a few have registered.

It is important that all relatives and tenants should attend to this registration, otherwise they will be deprived of exercising their franchise at any election during 1935.

Any previous registration is of no effect, under the new Act provides that all tenants and relatives must register each year. The registration will be closed on October 31.

The following is the official notice:
**Notice to Relatives of Persons
On the Assessment Roll
And to Tenants**

Notice is hereby given that during the months of September and October applications may be made under the provisions of section 188 of the Tax Act for inclusion in the voters' list of the Town of Didsbury by the following persons, namely:

The wife, husband, father and mother, and every son and daughter of any person whose name appears upon the assessment rolls entitled to be placed upon the said list—

(a) if he or she is resident within the said person within the town or assists him in business in respect of which he is taxable; and

(b) if he or she is of the full age of twenty-one years; and

(c) if his or her name does not already appear on the roll.

Tenants who have rented an assessed parcel for a period of twelve months immediately preceding last day of August of this year.

TOWN OF DIDSBUY

W. A. Austin, Sec. Treas.

August 29th, 1934.

Miss Ruth Gabel left Saturday for Kelowna, B.C., where she will train as a nurse at the hospital in that town.

Soviet Claims Scouted

Claims from Moscow that Russia had usurped second place among the world's gold producing countries, superseding Canada, has been received with almost universal scepticism. Apparently, the statement has been interpreted as just another of those efforts in propaganda with which Soviet authorities key their nationals to further sacrifices, but which singularly fail to impress the outside world.

During progress of the first five year plan, Moscow deluged the world with claims of amazing achievement, which, now that the ardors of the period have subsided, are being assessed at their true worth. There is no gainsaying the great advances made in certain industries, particularly the so-called heavy industries, under the program initiated by Lenin and carried into effect by Stalin. In some instances these have been spectacular, but (and this is the rub) seldom have they been quite as significant or outstanding as the claims made concerning them.

Several of the leading magazines and newspapers of Britain and America are devoting considerable space to reviewing the Soviet industrial and agricultural achievement. These have been equitable, unprejudiced and probably based upon the true facts, for truth and not antagonistic propaganda is what the public seeks these days. The claims made on behalf of socialized endeavor by proponents of Socialism of the Russian variety, apparently do not stand the test of statistical investigation. Alan Monkhouse, one of the British engineers sacrificed for propaganda purposes in the notorious sabotage trials of a year or so ago, in a book of his experiences in Russia, is surprisingly sympathetic to the Soviet planning scheme in the light of the circumstances surrounding his deportation. Paying some attention to the socialist model of industrial achievement, he states that the Soviet government's own figures in socialist lines such as house building do not compare favorably with similar achievements in capitalistic and individualistic England, recorded at the same time. He cites several particulars in which Soviet authorities claimed to have out-distanced their democratic and collapsing capitalistic contemporaries, which are not substantiated by the facts.

Apparently, the same is true of the gold production, backed by Russia threats that, having overtaken Canada they will shortly overtake and pass South Africa in production of the precious metal. In reply to this Canadian mining authorities maintain that, while undoubtedly Russia has been creeping up in production, it has not yet supplanted Canada as ranking second in production of newly mined gold. Much of the Russian gold it is claimed, was withdrawn from hoarding and, therefore, it is old gold reclaimed.

South Africans scoff at what they term a bombastic claim, and have no fear of losing premier place among the world's gold producers. This contention is backed by Dr. P. S. Nazarov, formerly a famous Russian geologist and now a fugitive from the Bolsheviks. His statement, based on actual knowledge of the various Russian goldfields and not upon political bias, is to the effect that nowhere in Russia do gold-laden bodies occur with the regularity and in the volume seen on the Rand in South Africa. "If Russian gold fields ever reach the stage of providing competition for South Africa it will be at tremendous cost of time and labor of transportation," he concludes.

Rebuilding Viking Boat

Oak Timbers Infest After Being Submerged Thousand Years

A Viking boat has been "reconditioned" at Danzig, after one thousand years. Workmen engaged in digging a ditch at Oliva found the remains of the boat only five feet beneath the surface of the ground. The sturdy oak planks of which the boat was originally built had defied the ravages of time so successfully that it has been possible to reconstruct the vessel in its entirety. The boat is thirty feet long, with places for eighteen oarsmen. Iron nails had been used in the making, as well as wooden pegs. Parts of the gunwales with the original rowlocks have survived, and much of the moss with which the seams were packed to make them watertight is still in nebulia.

Drugs In Garden Flowers

Many Are Valuable For Something Apart From Beauty

Most gardens contain at least one flower whose value to mankind is not to be estimated simply in terms of beauty. The leaves of the stately foxglove yield the drug digitalin, which still has no superior as a cure for heart disease or dropsy. The crocus is the basis of a preparation for gout sufferers, and the lobelia tender good service as a balsam for whooping cough. Then what a siren is the monkshood! Its attractive blue flowers conceal a deadly poison, aconitum, one-sixteenth of a grain of which will kill a man. But like other garden drugs this virulent member, scientifically controlled, is invaluable in the treatment of fevers and acute neuralgia.

Or Even A House

"Automobile owners will leave their vehicle unlocked with keys at hand and then complain to the police when someone breaks in and steals them," remarks Mr. St. Thomas Times-Journal. "Well, why should it be necessary to lock a car, and not a horse and buggy?" asks the Woodstock Sentinel-Review.

Wine must come from a limited area of France to be legally called champagne.

Change of Climate, Diet, Water Often the Cause of Diarrhoea

If you are suddenly attacked with Diarrhoea, Colic, Cramps, Pains in the Stomach, Summer Complaints, or any Complaints of the Bowels, do not waste time—just get a bottle of Dr. Fowler's Extract of Wild Strawberry and see how quickly it will relieve you.

This bowel complaint remedy has been on the market for over 88 years. Proof enough that you are not experimenting with some new and untried medicine.

Do not accept a substitute. Get "Dr. Fowler's" when you ask for it, and be on the safe side.

Put up only by The T. Miltura Co., Ltd., Toronto, Ont.

Was In Two Revolutions

Alberta Veteran Carried Despatches For General Strange

In Alberta 50 years ago, when highwaymen were just fading from the western frontier with the coming of the first Northwest Mounted Police, and when Indians were still on the warpath often, Charles F. Stewart drove the mail stage. Now 69 and retired, he lives at Edmonton.

Native of the prairies, he saw two rebellions at first hand. Son of the chief factor of the Hudson's Bay Co., he was a lad of nine and lived a few miles below Fort Garry during the Winnipeg rebellion of the previous day or so.

Millions Of Acres Of Finest Wheat Lands In West To Come Under Reclamation Plan

Reclamation of millions of acres of the finest wheat land in the world, desolated by successive years of drought, is the immediate object of four governments in Canada, the federal, Manitoba, Saskatchewan and Alberta.

Plans have been laid already to relieve distress in the dried-out areas of the prairies feed the impoverished people, provide seed for next year's crops and look after millions of half-starved cattle and horses. But there is another object in mind—how to reclaim for the land its binding and freshness due to years of drought.

For months the Dominion department of agriculture has been experimenting with grasses gathered from all parts of the world to determine the best to act as a binder to the wind-tossed soil of the prairies. Agricultural experts believe many parts of the West never will regain their paramount place as wheat producers until the soil has been rebound and rejuvenated. Eventually it may lead to re-formation and irrigation on a wide scale.

Some idea of the vastness of the problem may be gathered from these figures: In Manitoba, 1,000,000 acres of municipalities affected by the drought. Sixty per cent. of the cultivated acreage of Saskatchewan has been dried out and 40 per cent. will not produce a marketable crop this year. The dry area in Alberta is 2,000,000 acres, a decrease from last year. Some sections of the prairies have had five crop failures in a row.

Agreements were signed last week between the Canadian railways, the federal government and the prairie governments providing reduced rates on livestock feed moved to the dry sections and cattle and horses shipped to northern ranges. It will be impossible to transfer all the half-starved stock from the dried-out areas and some are not worth the cost of feeding. It may result in wholesale slaughter of cattle to be processed into hog feed.

A trickle of migration has started from the dry sections, but this is not regarded as practical on any large scale. In Saskatchewan, for instance, 400 families probably 200,000 people have farms in the drought sections. About 100 families have located their farms in the south and selected new land in the north, but this movement is limited to the available acreage of unbroken land of good quality. In addition, western farmers are the world's best optimists and, like everybody else, dislike leaving their settled farms.

It is impossible to say how much the Dominion will spend this year in drought relief. It has been placed between \$15,000,000 and \$20,000,000 in addition to direct relief for the people. It will be impossible to give an estimate until a decision is made on the campaign to reclaim the land and this is not expected for some time.

The Dominion already has taken steps to thwart speculators in land due to the needs of the west and the small Canadian crop. It has passed regulations forbidding the export of hay without license. This will control the Canadian supply in view of crop failures in the United States and Washington's removal of the \$5 a ton tariff.

A Remarkable Test

Wireless Telephone Talk Heard Directly Over Extremely Long Distance

Wireless telephone link has been established between India and London and recently a telephone conversation between the Collector of Posts and the London Post Office official was heard distinctly when the first test was made of the proposed wireless telephone service between the two cities. This is remarkable because the voice traverses 2,000 miles of land line via Lahore, Agra, and Surat, before being sent out from the Kirkee wireless station.

There's always the bright side. You can't poke the same finger into an electric fan twice.

Inventors Seldom Get Rich

Thousands Of Gadgets Are Never Granted A Patent

A window pane, which, on being broken by a burglar, creates an instant vacuum, drawing the hapless intruder into the room and holding him on the floor until captured, was among the 20,000 inventions of last year which were not granted patents. "Perpetual motion machines are the most popular, and about a hundred 'fresh' discoveries of this kind are made every year," a well-known firm of patent agents informed a representative.

JACKET DRESSES ARE ALWAYS FAVORITES FOR IN-BETWEEN SEASONS WEAR WITH SMART WOMEN

You'll like today's model for its smart individuality.

It is grey-blue, plaided in a winsome rayon with woven effect, plain waist and the right jacket cuff with piping-toned trim.

The jacket is the youthful boxy shape. The dress has easy-to-handle raglan sleeves. The bodice button front creates a very slimming line. Plaits had animation to the slender skirt.

Angora plaid in bright colors, crepe matinée, heavy novelty crepe and other fabrics, are nice ideas for its development.

Style No. 484 is designed for sizes 14, 16, 18 years, 36, 38 and 40 inches bust. See front envelope for material requirements.

Price of pattern 20 cents in stamps or coin (stamp is preferred). Wrap coat carefully.

Then and Now.

Fifteen years ago Canada was engaged in floating one of the most successful of its war loans. National enthusiasm was at its highest pitch. Business was booming and money was plentiful. Results exceeded the fondest hopes, nearly 800,000 citizens subscribing for the 1919 Victory Loan Bonds. True, the income yield of 5½ per cent, was not attractive, but opinion then was that people subscribed more from their wholehearted desire to assist national reconstruction, rather than because of the attractive rate of interest.

Holders of these 1919 Victory Bonds, which will mature November 1, are now being asked to convert them into bonds of the 1934 Refunding Loan. That the majority of holders of 1919 Victory Bonds will avail themselves of this privilege there can be no doubt. They know what a safe and profitable investment they have had, and will surely wish to continue it. The record of Dominion of Canada Bonds during the past few years, when investors have suffered loss of capital and distress of mind, demonstrates conclusively that there is no safer investment than Dominion of Canada Bonds. Security of principal is paramount in any investment. Consequently when the unassailable security of Dominion of Canada Bonds is coupled with so desirable an income yield as is offered by the new Bonds, the response from those having bonds to convert as well as applications from new investors, should be both prompt and enthusiastic.

**Try Health Insurance
in Two Units First**

The public of Alberta is evidently quite prepared for a complete tryout on a small scale of the health insurance plan as recommended in the report of the commission on state medicine presented to the Alberta legislature at last session, and most classes concerned are ready to give full cooperation in such experiment, to judge by the feeling evident at the general conference on the subject held recently at the University of Alberta. Indication of this attitude was given by representatives of organizations most vitally concerned in the proposals. It was made abundantly clear during the conference, both by Hon. Geo. Hoadley, minister of health, and Dr. A. C. McTigue, who was secretary to the commission, that it was not the intention of the Alberta government to carry out the program of the commission for certain health insurance plans on any wide scale, until such time as experimentation on a small scale had established the soundness of the proposals. The plan is that, while legislation will probably be introduced at the coming session to give the proposals legal status, yet it is the intention to carry out an experiment first in only two so-called health units, one being an urban and the other a rural unit.

Hon. Mr. Hoadley declared the problem to be solved was the greater distribution of health services among the people. The province was amply equipped now with all that was necessary in the way of facilities and professional ability to give health service to the people. The situation was that an increasing number of people found it impossible to finance health services they needed, while doctors were reaching the point where it would be impossible

much longer for them to go on giving services without adequate return. He paid a tribute to the medical men, dentists and nurses, who were in these difficult times giving a tremendous amount of service without any hope of financial reward. Our problem is to solve the difficulty of the pooling of the costs and the paying capacity of the people, after which we must concentrate on the distribution of health services. Under a health insurance plan, it would be possible, he said, to regulate the quality of service given to the people. Humanity was not a plaything in the operating room, nor should we gain experience by unnecessary human suffering.

WEEKLY JOKE

A farmer was delivering vegetables to a public sanatorium. A patient saluted him. "You're a farmer, ain't you?" was the next question. The farmer answered that he was. "I used to be a farmer once," said the guest of the state. "Did you?" "Yes. Say, stranger, did you ever try being crazy?" The farmer said he never had and started to move on. "Well, you ought to try it," was the ex-farmer's parting shot, "it beats farming all hollow."

DOMINION OF CANADA**1934 REFUNDING LOAN**

The Minister of Finance offers for public subscription

Two-year 2% Bonds, due 15th October, 1936

Issue price: \$9.90 and accrued interest, yielding 2.57% to maturity.

Five-year 2½% Bonds due 15th October, 1939

Issue price: \$9.15 and accrued interest, yielding 2.90% to maturity.

Eight-year 3% Bonds, due 15th October, 1942

Issue price: \$9.00 and accrued interest, yielding 3.48% to maturity.

Fifteen-year 3½% Bonds, due 15th October, 1949

Issue price: \$6.50 and accrued interest, yielding 3.81% to maturity.

Principal payable without charge in lawful money of Canada at the Head Office of the Bank of Canada, Ottawa, or at any of its branches in Canada.

Interest payable half-yearly, 15th April and 15th October, in lawful money of Canada, without charge, at any branch in Canada of any chartered bank.

Denominations

Two-year Bonds, \$1,000

Five-year Bonds, \$500 and \$1,000

Eight-year Bonds, \$500 and \$1,000

Fifteen-year Bonds, \$100, \$500 and \$1,000

Cash Subscriptions

All cash subscriptions will be subject to allotment. Following the announcement made of the plan of allotment, payment in full for the bonds allotted must be made promptly against delivery of interim certificates, which will be effected on or about 15th October.

Refunding Subscriptions

Holders of Victory Loan 5½% Bonds due 1st November, 1934, after detaching and retaining the coupon due 1st November next, may, for the period during which the subscription lists are open, tender their bonds in lieu of cash on subscriptions for a like par value of bonds in one or more maturities of the new issue and receive allotment in full with prompt delivery. The surrender value of the Victory 5½% Bonds will be as follows:

100% of their par value on subscriptions for the Two-year 2% Bonds and the Five-year 2½% Bonds.

100% of their par value on subscriptions for the Eight-year 3% Bonds if effected on or before 6th October, and 100% of their par value after that date.

100% of their par value on subscriptions for the Fifteen-year 3½% Bonds if effected on or before 6th October, and 100% of their par value after that date.

Holders will receive in cash the difference between the surrender value of their Victory Bonds and the cost of the bonds of the new issue.

The amount of this Loan is limited to \$250,000,000.

The Loan is authorized under Act of the Parliament of Canada, and both principal and interest are a charge on the Consolidated Revenue Fund of Canada.

The proceeds of this Loan will retire \$222,216,835 Dominion of Canada 5½% Bonds maturing 1st November, 1934. The balance will be used for the general purposes of the Government, including the redemption of short-term Treasury Bills.

Subscriptions will be received and receipts issued by any branch in Canada of any Chartered Bank and by Recognized Dealers, from whom may be obtained application forms and copies of the official prospectus containing complete details of the Loan.

Applications will be received in the form of a letter, together with those printed by the King's Printer.

The subscription lists will open 1st October, 1934, and will close on or before 15th October, 1934, with or without notice, at the discretion of the Minister of Finance.

**Annual Meeting,
Didsbury Branch
Bible Society****Rev. H. D. Marr's Farewell
Address.**

The annual meeting of Didsbury's branch of the British and Foreign Bible Society was held in the Knox United Church on Sunday evening last.

Rev. H. D. Marr, for 22 years secretary of the Southern Alberta Auxiliary, who is retiring from the secretariate, brought his farewell address before a large congregation.

He said in part: "Of all the writings and literature, ancient and modern, in all the libraries, past or present, none have made such an appeal to the intellectual and spiritual faculties of men as the writings known as the Holy Scriptures. No man can read them without being transformed by them, and through at the written or printed page conveyed to so many millions of human beings the saving, satisfying knowledge of God as revealed in Christ."

No other writings known to man possess the dynamics to transform man's lives, purify and elevate his ideals, revolutionize their systems, and reform conditions for human uplift and welfare. If any man would know his own heart, and if he would know God in all its grandeur of His nature and far-reaching grasp of His love, let him read the Bible. The book which Queen Victoria said was the secret of England's greatness, and to which may the Motherland soon return as the unfailing source of her Empire's guidance. Let the world know that this has descended for, when England speaks the whole world listens."

"If Christianity is ultimately to become the Universal Religion, the Church must first become the Universal Book. We are all hearing much about the 'Absolutes' these days: Absolute Honesty, Absolute Purity, etc. We need also to give attention to the 'Universals,' to a Universal God and a Universal Book.

"The achievements of the Bible Society, associated as they have been with the missionary work of the Church, are gradually and surely making the Bible the Universal Book. The Bible has now been translated into 950 forms of speech. During these four years of depression, the translation work, with no money, and its diffusion has lost its direction, more than forty million copies of the Bible have been circulated in almost every part of the world, and has been translated into new languages. Our Southern Alberta Auxiliary last year circulated 13,745 volumes in 35 languages. Our two co-portraiture during the year visited 6,928 homes."

At the close of the service the annual business was taken up, followed by the election of officers, which resulted as follows:

President, Rev. A. Traub
1st Vice-president, Dr. Clarke
2nd , Mr. M. B. Clemens
3rd , Mr. H. D. Bookler
4th , Rev. F. Vincent
5th , Mr. Bogner
Sec.-Treas., Mr. J. V. Bercht
Collectors appointed were: Mrs. J. L. Clarke, Mrs. N. S. Clarke, Mrs. Bookler, Mrs. Burkholt, Mrs. Pitt, Mrs. Wriggleworth, and Mr. Eli Shantz.

A special committee consisting of Rev. Traub, Dr. Clarke and Rev. Wood, was appointed to draw up a resolution recognizing Rev. Marr's twenty-two years of service.

The treasurer reported that the sum of \$167.25 was received during the past year.

Cards of Thanks

Mrs. Charles Cummings and family wish to thank the many friends and neighbors for their kindness and sympathy during their recent bereavement.

We wish to tender our sincere thanks to our many friends and neighbors for their kind help and sympathy during the sickness and death of our beloved mother.

The Hughes Family
Westcott.

Westcott Notes.

The Westcott W.L. held their regular monthly meeting at the home of Mrs. H. Steckley on Friday September 28. Owing to the bad roads there was not a large attendance. Plans were discussed for the annual bazaar which is to be held on November 16. Some beautiful and useful articles were shown in the wool display; these will be sold at the bazaar. A dainty lunch concluded the afternoon.

Melvin Notes

Miss Hazel Ray spent the weekend at her home.

Miss Adamson of Elkton is helping Mrs. August Krebs for some time.

Mrs. Glen Johnston and children spent the weekend with Mr. and Mrs. Peter Johnston.

Mr. and Mrs. Tom Duncan and daughter spent Sunday evening with Mr. and Mrs. George Youngs.

Mr. and Mrs. W. Thurlow and daughter from east of town were Sunday callers on Mr. and Mrs. Charles Youngs.

Much sympathy is extended to Mr. and Mrs. Harold Bliss on account of the death of his brother, George, of Bonden.

Sunday guests of Mr. and Mrs. Lanceford Carlson were Mr. and Mrs. L. Daniels and son Roy of Calgary, Miss McGregor and friend and Mr. J. Hardy.

Mr. Wilson Hyndman and Mr. Bob Woodruff of Calgary are visiting around the district. Wilson is calling on his old friends and school mates.

Congratulations to Mr. and Mrs. Harold Bliss, a little daughter has come to stay. Mother and babe are doing nicely in the Didsbury Hospital.

We are pleased to report that Mr. Bryan Johnstone, who is in the Calgary General Hospital is improving nicely after his operation last week.

Sunday visitors with Mr. and Mrs. August Krebs were Mr. and Mrs. C. G. Carlson and Miss Lilian Kynch. Mr. and Mrs. Ted Culling spent Wednesday evening at the Krebs home.

KNOX UNITED CHURCH NOTES

Rally Day Services will be held at the Sunday school on Sunday morning at 11:45. Parents are specially invited to be present.

Annual Thanksgiving Services will be conducted on Sunday evening at 7:30 by Rev. A. J. Mitchell. This will be the minister's first service after returning from his holidays, and a good attendance is requested to welcome him home.

Tuesday evening next at 8 o'clock a Get Together Social will be held in the church basement. After lunch, to be purveyed by the Ladies Aid, there will be a program of music to which all are invited.

"Y" Notes.

The "Y" Girls will hold their regular monthly meeting on Tuesday evening, October 9 at 8 o'clock at the home of Miss Edna Thaler. Each member is urged to attend and bring a friend. Mrs. Hallinan will speak on the subject of "Scientific Temperance."

Protect Pheasants.

One good citizen who is deeply interested in establishing the ring-neck pheasants in this district, and who has released a number of birds, pointed out that there are quite a number of the birds here this fall, and that every effort should be made to protect them. There is a heavy penalty for shooting these birds, and there is to be a close check-up. Boys with .22 rifles are reported to be the chief offenders. If the birds are given a chance they will soon become plentiful here.

BABY'S OWN TABLETS 25¢

WORLD HAPPENINGS BRIEFLY TOLD

President Roosevelt has received a report saying employment in United States has increased 4,120,000 since he took office.

Dr. J. A. MacArthur, 88, pioneer leader of the medical profession in Manitoba for more than half a century, died recently in Winnipeg.

Extension of the recommendation system to supplement examinations in the schools was urged by Duncan McArthur, deputy minister of education for Ontario.

Veteran of both the Boer war and the Great War and former Arctic trader, Major M. Montague Marsden, 62, is dead at Vancouver from a heart infection.

The British cabinet considered British protests against the new import duties on Lancashire textiles and ruled the tariffs are to be maintained.

The Indian government's ban on flying over the northwest frontier will lengthen the London to Melbourne air race in October by 1,000 miles.

Henri Gagnon, Quebec president of the Canadian Press, and managing director of the newspaper Le Soleil, has been elevated to the rank of an officer of the Legion of Honor of France.

China has informed the League of Nations it will stand as a candidate for China's seat in the assembly; China's mandate expires this year and Persia considers itself qualified to represent Asia.

Captains of Great Lakes steamers say low water levels in the lakes have uncovered rocks and sandbars and cargoes have had to be considerably reduced from other seasons. Vessels have grounded this summer in places previously considered safe, they declared, and the captains had to stay on the bridge continuously.

Stay Was Uncertain

A social worker on her first visit to a prison was greatly impressed by the sorrowful attitude of one man she found. "My poor man," she sympathized, "what is the length of time you'll spend here?"

"All depends on politics, lady," replied the mournful one. "I'm the warden."

Cheap Television Sets

New System Developed Promises Sets At Low Cost

A new system invented by Mr. R. W. Hughes, of Plymouth, England, may result soon in the production of cheap television sets for all.

Mr. Hughes said he thought a television receiver, built with a light source and amplifier, could be mass produced to sell at \$10 or less.

With his somewhat crudely-constructed apparatus, Mr. Hughes is able to project a 100-in. picture on a screen two feet square.

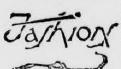

A system of vibrating mirrors causes a small but instant spot of light to travel over the screen and form the images.

Mr. Hughes is also developing an apparatus which, he claims, overcomes the problem of synchronizing—one of the chief difficulties of television—and has built the picture steady for considerable periods.

Firmer in this country as well as in Germany and the United States have been interested in the invention, and it is said that successful negotiations have been concluded with a British company.

Mr. Hughes has been working for nearly two years on his new apparatus and has built a special transmitter to test his receiving apparatus at any time.

Your Handwriting Reveals Your Character!

By LAWRENCE HIBBERT
(Grapho-Analyst)

(All Rights Reserved)

Editor's Note: This is the first of a series of fascinating articles on this very interesting subject of Character Reading from Handwriting. The author, a well-known handwriting expert, has an interesting announcement to make following this article.)

There is always something thrilling in the mysterious. For thousands of years people have tried to fortify themselves with charms to ensure—sometimes accurately, and sometimes, amazingly prophetic of the Future. Through the ages people have sought for an explanation of tearing aside the curtain of mystery to reveal the truth. There will always be a thrill of the mystical or occult in these foreseen events.

The astrologer who looks at the stars, and predicts your future from them; the soothsayer who peers into the globe and tells you fortune; the palm reader who reads your hand; the tell-tale lines it shows; the phrenologist who searches your head for the revelations it discloses, down to the ever popular amateur at the tea-table who reads the tea-leaves—all have their followers who swear by them.

And mankind, a path that is built on solid science, is doing the same. Grapho-Analyst is gaining an ever-increasing body of adherents who find his analysis of character surprisingly accurate.

Grapho-Analyst is the science of character delineation from handwriting, what it really is?

Robert Sandell, the famous English crystal-gazer, says: "There is no substitute for handwriting, but only brainwriting." This is because the impulses and motor power come from the brain. Writing means muscle control, and we think it is to write a letter whilst reading a book!"

The "Advertiser" Times Magazine some time ago made the statement that handwriting is the extreme importance is extraordinary, because, and traces of grey matter similar to that in the brain, may be found."

Throughout the world, Grapho-Analyst is gaining recognition as a practical science. In many of the European universities and colleges the subject is being studied as a regular part of the curriculum. In the United States, however, it is finding increasing application.

Business men, teachers and doctors are using it to supplement their own specialized knowledge. Indeed, many of the large commercial firms and corporations are extensively using it, and traces of grey matter similar to that in the brain, may be found."

Throughout the world, Grapho-Analyst is gaining recognition as a practical science. In many of the European universities and colleges the subject is being studied as a regular part of the curriculum. In the United States, however, it is finding increasing application.

Business men, teachers and doctors are using it to supplement their own specialized knowledge. Indeed, many of the large commercial firms and corporations are extensively using it, and traces of grey matter similar to that in the brain, may be found."

Now comes five dollars, but he is not resting on his laurels, for he scented money in short hair. He buys it from barbers and sells it to barbers for mixing with their plasters.

An engineer recently designed a telescope with a slot in which you placed a penny.

The "works" allowed you to look through the instrument for a certain time before a shutter closed it again.

He put one on Southend pier and found that he was making it a week out of it, for even at night "you can look at the moon and the stars".

Now the man has his telescopes on the majority of seaside piers and parades, and you can work out his profit for yourselves.

If you can devise a way to harness the tides or make the obtaining of the gold suspended in the sea a paying proposition you will make your fortune.

And while on the subject of gold, there is Britain's richest gold vein still awaiting further development.

It lies near Dolgellau in Wales. The Prince of Wales and Clogau Mines have bath supplied wedding rings to the royal family.

The richest part of the vein, it is said, still lies untouched in wild country between those two mines.

Curio collecting may also bring you in an unexpected windfall, even in these days when the country has been combed fairly thoroughly.

At Denham, that lovely little village, a man recently bought a very rare grange for £10. He sold it for £200!

No Free Advertising

A violinist was very much disappointed with the account of his recent printed in the paper of a small town.

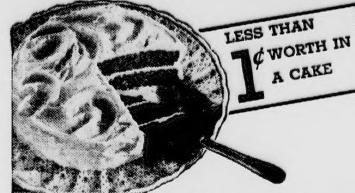

I told you three times," complained the musician to the owner of the paper, "that the instrument I used was a genuine Stradivarius, and in this story there was not a word about it, not a word."

"That is as it should be. When the Stradivarius Company advertise their fiddles in my paper, under 10 cents a line, you can come round and tell me about it."

Young Farmer: "What happened to those nest puddings you made yesterday, Jane?"

Young Wife: "As you didn't like them, I gave them to the ducks."

Farmer: "So that's where my ducks have gone—they're sacked!"

ACTUALLY—it takes less than 1¢ worth of Magic Baking Powder to make a big, three-layer cake. And you can depend on uniform goodnessevery time. No wonder Canada's foremost cookery experts say it doesn't pay to take chances with doubtful baking powder. Bake with Magic and be sure!

MAGIC
MADE IN CANADA

CONTAINS NO ALUM. This statement on every tin is your guarantee that Magic Baking Powder is free from alum or any harmful ingredient.

Using Their Brains

People In England Making Money By Unusual Means

Just round the corner, everywhere in Britain, there lies wealth waiting to be picked up in a thousand unexpected ways by men and women of brains and initiative.

There is a radium mine at St. Ives in Cornwall, for instance, which several of the well-informed local inhabitants will tell you possess enough of that rare substance to supply half the hospitals of the world.

Some people have made fortunes by using that poison and very common substance chalk in unusual ways.

Modern science can turn it into edible fat, and this process may soon become a commercial proposition.

Planes are already afoot, indeed, to equip a factory for such a modern miracle.

A man saw a fortune in sawdust two years ago.

He borrowed the money, bought an old lorry, and went along to his local London sawmills, where they almost gave him their "waste product", which he sold at a handsome profit to butchers and others.

He now owns five lorries, but he is not resting on his laurels, for he scented money in short hair. He buys it from barbers and sells it to barbers for mixing with their plasters.

An engineer recently designed a telescope with a slot in which you placed a penny.

The "works" allowed you to look through the instrument for a certain time before a shutter closed it again.

He put one on Southend pier and found that he was making it a week out of it, for even at night "you can look at the moon and the stars".

Now the man has his telescopes on the majority of seaside piers and parades, and you can work out his profit for yourselves.

If you can devise a way to harness the tides or make the obtaining of the gold suspended in the sea a paying proposition you will make your fortune.

And while on the subject of gold, there is Britain's richest gold vein still awaiting further development.

It lies near Dolgellau in Wales. The Prince of Wales and Clogau Mines have bath supplied wedding rings to the royal family.

The richest part of the vein, it is said, still lies untouched in wild country between those two mines.

Curio collecting may also bring you in an unexpected windfall, even in these days when the country has been combed fairly thoroughly.

Must Be Improved

Little Journeys In Science

INSECTS

By Gordon H. Guest, M.A.

Insects are our greatest friends—and our greatest enemies. Some aid man and some harm him. Once in the history of the earth it appeared as if they might inherit the earth and gain control of it. Scientists have counted 340,000 different kinds of insects that exist to-day. Of this number, however, man has domesticated and used the products of the labor of only one—the honeybee.

It is of interest to know that an insect that can crawl through the eye of a needle has a little heart and other organs. Insects reverse man's method and wear their skeletons outside. They are without lungs but air gets to every part of their bodies through a large number of microscopic tubes. This system of obtaining air works so efficiently that it's doubted whether an insect's blood is ever impure.

In regard to intelligence, many an insect has more brain-power, in proportion to its weight, than have human beings. A spider is a very expert bridge-builder. In Texas are found ants which clear the ground around their hills of all plants except those that produce such seeds as it wishes to eat. Bees have, in proportion to their weight, much more intelligence than man. House-flies are not noted for their brain power but they are expert with their wings, which they flap 330 times a second;umblebees, 240 times; dragonflies, 285 times; butterflies, 9.

Among the most useful insects is the bee, which supplies honey, and in some countries produces bee bread for the support of human life. Silk-worms furnish material for clothing and their culture is an important industry in many countries. The common wood nut is used extensively in Europe for the manufacture of vinegar. The cochineal insects supply a valuable coloring material, while even the grub is used as a food in the West Indies.

Among the insects which are most harmful to man may be included the Hessian fly, potato bug, chinch bug, army worm, cotton boll weevil, cotton boll moth, and grasshopper, all of which attack growing crops.

Canada Must Raise Better Hogs To Capture Market

The Canadian farmer lost \$12,000,000 in 1933 by reason of the fact Danish hogs were better than Canadian hogs. J. S. McLean, president of Canada Packers, says in the annual report. Unless Canadian hogs are improved, he said, the same amount will be lost each year.

"The securing of this \$12,000,000 lies in the hands of the Canadian farmer," he continued. "He alone can do the job. And if it is done, he will be the sole survivor."

The "certain lack of confidence" existing between the farmer and the packer was due chiefly to the farmer.

Not What He Meant

Two English tourists were standing gazing at Niagara Falls.

"Isn't it marvellous?" said one. "Just magnificent. To stand here makes a man feel like a little grub."

"You're right," replied the other. "I've had nothing to eat since breakfast myself."

Mountain View Notes

Several members who were not notified in time of the postponement of the usual monthly meeting of the local W.L., met at the home of Mrs. Ed. Blain on September 20, so it was decided to hold the meeting.

J. Hill presided in chair and the meeting commenced with "O Canada," followed by repetition of the Creed. Each member answered the roll by naming his birthplace. Some were living at home, while others were hundreds of miles away. No topic was given, as Mrs. Harry Pearson, who was to deal with Legislation, was called to California on account of the illness of a relative. Business was transacted and the meeting closed with the National Anthem, after which a tasty lunch was served by the genial hostess, Mrs. Blain. The October meeting will convene at the Community Hall on the 18th.

Skunks are very prevalent this season, several chicken houses having received a visitation. One resident discovered two of them enjoying a chicken dinner in his hen house and was fortunate in destroying them—but had to discard some of his clothing before he reentered his domicile.

Burnside Notes.

Mr. and Mrs. Otto Bittner were Sunday visitors at the home of Mr. Geo. Metz.

Mr. and Mrs. David Thoman, Samuel and Ruth Thomas were Calgary visitors Wednesday last.

Mr. and Mrs. N. Eckel spent Sunday as guests of Mr. and Mrs. Duncan Morrison at Olds.

Messrs. Albert Spragg and Ralph Long were Sunday visitors with Mr. and Mrs. A. E. Thompson.

Messrs. Fred Döll, Robert Eckel and Neha Jensen spent Sunday evening with Perry Saunders.

Mr. and Mrs. N. Eckel, Mrs. Bert Pross and Miss Helen Pross attended the funeral at Westcott last Thursday afternoon of their old friend the late Mr. James Hughes.

Elkton Notes.

A pleasant surprise party was accorded Mrs. Steve Jancseks (nee Elsie Shantz) at the home of Mr. and Mrs. Wright on the occasion of her birthday, September 22. The evening was pleasantly spent in card-playing and dancing, followed by an appetizing lunch. Before the party dispersed songs were sung by all, with special numbers from Joe and Johnnie Kyncl. Those present were Mr. and Mrs. Allan McRae and son, Miss Helen Moon, Mr. and Mrs. Ed. Berscht and family, Miss Winnie Adamson, Mr. Herb Moore, Mr. Bill Neufeldt, Messrs. Joe and Johnnie Kyncl, Mr. Walter Dobson, Miss Mann, Mr. Dave Schneidemiller, Mr. and Mrs. C. Romyn and family, Miss Clara and Mr. and Mrs. Bill Marshall and Mr. and Mrs. John and Mrs. Kitchener Blair. Owing to the bad weather relatives from Calgary, Nanton and Cremona were not present. Mrs. Jancseks was the recipient of some very useful gifts.

The regular monthly meeting of the W.C.T.U. will be held at the home of Mrs. Harry Gabel on Thursday, October 11 at 3 p.m. A report on the provincial convention will be given by the delegate. All ladies cordially invited.

Mr. Bryan Johnson was last Monday taken down to Calgary General Hospital. He is under the care of Doctors Bouck and Brodie and underwent a minor operation. Both doctors are well pleased with his condition. He would be glad to see any friends from this district.

Miss Eva McMow, who has been ill for the past several months, has been transferred back to the local telephone exchange. Together with her mother they have moved back to Didsbury and are occupying the C. G. Carlson residence.

Word has been received that Mrs. C. C. Pearson, a former Didsbury resident, and mother of Mr. Harry Pearson, passed away at her home, North Whittier Heights, California, on Wednesday, September 19. Mr. and Mrs. Harry Pearson drove to California, but arrived the day following his mother's death.

Miss Holly Hunsperger wishes to inform her customers that she has changed her business address, and that from Monday, October 8 she will be found at the home of Mrs. James Shells, east of the Public School. Hours: 10:30 a.m. to 5:30 p.m. Saturdays 10:30 a.m. to 9 p.m. Prices as usual.

Hon. Duncan Marshall, formerly minister of agriculture in Alberta, and now holding a similar post in Ontario, will speak at the 21st birthday ceremony of the Olds School of Agriculture to be held during the first week of November. He has accepted an invitation from the Edmonton Chamber of Commerce to speak there.

LOCAL & GENERAL

See "Woodie" for Coal.
Binding Cloth for binding school books, etc.—Pioneer Office.

Looseleaf pads for maps, etc.—each at the Pioneer.

Mr. and Mrs. Luke Collinge leave today (Thursday) for the coast, where they will spend the winter.

Mrs. Laura Smith, who has been taking a month's vacation, is again at her post in the local post office.

Teachers—Before purchasing your report cards see the sample at our office.—Didsbury Pioneer

Mrs. Erven M. Rodney received news from her home of the death of her mother, Mrs. Rosa Waller, Reigate, Surrey, England.

There will be a celebration of the Holy Communion at St. Cyprian's Anglican church on Sunday morning at 11 o'clock. Please notice church announcement.

The matron and nurses of the Didsbury Hospital wish to thank the members of the Anglican Church for their kind donation of fruit and vegetables.

The I.O.D.E. intend giving an art and antique exhibit on Oct 27. If you have anything of interest in antiques, art or handicraft you are invited to bring them in.

Mr. W. A. Austin went to Edmonton last Wednesday to attend a meeting of the legislative committee of Union of Alberta Municipalities.

Messrs. Wilson Hyndman and Bob Woodruff of Calgary were visitors in town yesterday. Mr. Hyndman is the son of Mr. Harry Hyndman, a former resident here.

Miss Mary Hughes of Swift Current, who was called home on account of her mother's death, returned to her duties at the Swift Current Hospital.

The chicken season opened Monday and this district attracted a number of outside hunters. Several cars of hunters from Calgary were here early Monday ready for sunrise.

Messrs. C. F. Rennie and H. C. Rennie returned Friday last from New Hamburg, Ont., where they attended the funeral of the late W. K. Rennie, Mr. C. F. Rennie's brother.

The regular monthly meeting of the W.C.T.U. will be held at the home of Mrs. Harry Gabel on Thursday, October 11 at 3 p.m. A report on the provincial convention will be given by the delegate. All ladies cordially invited.
